An invitation to support our community

Dear prospective sponsor,

We invite your organisation to help launch and develop Kingdom Hope Restoration's community programmes in KwaZulu Natal. We welcome financial pledges, donated goods and equipment, professional services and volunteer partnerships. Please use the checklist and pledge form in this proposal to tell us how you would like to assist.

Our vision is to restore hope through community care, food security and opportunities for women, children, families and older people. Support for our launch will help us obtain practical resources and develop programmes that can grow as funding and partnerships become available.

The story behind our work

Kingdom Hope Restoration carries forward the dream of Mr Rodney King, whose care for people in his community inspired a new generation to serve. His daughter Odette King and her childhood friend Latitia Saunders grew up in Wentworth, KwaZulu Natal. After following different career paths, they reunited around a shared commitment to community service and food security.

Latitia's experience of foster homes and St Monica's Home shaped her understanding of the difference that care and opportunity can make. Odette's passion grew from watching her father nurture people in need. Sharnaz Candice King brings a passion for elderly care, developed through her career and work abroad. Their shared Christian faith and love for their community guide this work.

Our request

Please consider supporting a programme or supplying one or more of the resources listed on page 3. You may also propose a partnership that fits your organisation's expertise. We will discuss the scope, timing and intended use of your contribution before arrangements are finalised.

With appreciation,
The directors of Kingdom Hope Restoration

Programmes you can support

The following programme areas form part of our launch vision. Activities, delivery dates and the number of people served will be agreed according to available resources and programme readiness.

KingdomCare
Community care for people who need practical support, with a focus on children, families and older people. Proposed support includes food parcels, hygiene essentials, care supplies and community care activities.

HopeRestoration
Supportive activities for women and families, including mentoring, family support workshops and connections to appropriate community services. Sponsors can assist with workshop resources, transport and qualified professional support.

EmpowerRise
Learning and skills development for women and young people. Proposed activities include basic digital skills, practical training and mentoring. Sponsors can contribute learning materials, computers, connectivity or training expertise.

Fruits of the land
Food cultivation and practical gardening linked to Rodney King's dream. Support can help establish growing activities through seeds, seedlings, tools, water access and agricultural guidance, with the aim of improving access to fresh produce and sharing cultivation skills.

How a partnership can work

Sponsors may offer a once off contribution, recurring support, equipment, services or funding for a defined activity. We can discuss a specific needs list and costed scope for the area you choose. This proposal does not set a fixed fundraising target or promise a particular number of beneficiaries.

For each accepted partnership, we propose agreeing the purpose of the contribution, its value or quantity, the delivery schedule and any reporting requirements. Acknowledgement on our website or social pages can be discussed with your permission.

Tracking your contribution

Partnership discussions can include proof of receipt, records of how goods or funds are used, and progress updates appropriate to the project. Any photographs or personal stories shared with sponsors should respect the privacy and consent of the people involved.

Next steps

1. Select your interests on the donation checklist.
2. Complete the sponsor details and pledge form.
3. Email the completed pages to info@kingdomhoperestoration.org.
4. We will contact you to confirm needs, payment or delivery arrangements and the agreed partnership scope.

Donation and programme checklist

Tick all options you wish to discuss. These are proposed donation categories; quantities, specifications and suitability will be confirmed with you before delivery.

Programme interests

☐ KingdomCare Community care and practical essentials
